Nevile, M.	Beyond the Black Box: Talk-in-Interaction in the Airline Cockpit	107
The SFPE Task Group on Human Behavior	SFPE Engineering Guide to Human Behavior in Fire	109
Chengular, S. N., Rodgers, S. H., and Bernard, T. E.	Kodak's Ergonomics Design for People at Work, 2nd edition	220
Dankelman, J., Grimbergen, C. A., and Stassen, H. G.	Engineering for Patient Safety: Issues in Minimally Invasive Procedures	323
Kumar, S.	Muscle Strength	325
Delleman, N. J., Haslegrave, C. M., and Chaffin, D. B.	Working Postures and Movements: Tools for Evaluation and Engineering	327
Noy, Y. I., and Karwowski, W.	Handbook of Human Factors in Litigation	434
Castro, C. and Horberry, T.	The Human Factors of Transport Signs	437
McCabe, P. T.	Contemporary Ergonomics 2004	739
Evans, L.	Traffic Safety	909
Inaba, K., Parsons, S. O. and Smillie, R.	Guidelines for Developing Instructions	1018
Boman, A., Estlander, T., Wahlberg, J. E., and Maibach, H. I.	Protective Gloves for Occupational Use	1020

Reviewers

Baxter, G. 108
Zachary Au, S. Y. 110
Torrens, G. E. 220
Lyons, M. 324
Morris, W. 326
Richardson, J. 328
Esgate, A. 436
Wilcock, R. 436
McKeown, C. 438
Morrissey, S. J. 740
Young, M. S. 910
Whitfield, D. 1019

Contents

Volume 49 Number 1 15 January 2006

1 **Is the use of ergonomic measures associated with behavioural change phases?**
H. F. van der Molen, J. K. Sluiter and M. H. W. Frings-Dresen

12 **Work routinization and implications for ergonomic exposure assessment**
J. E. Gold, J.-S. Park and L. Punnett

28 **The effects of lumbar massage on muscle fatigue, muscle oxygenation, low back discomfort, and driver performance during prolonged driving**
J. L. Durkin, A. Harvey, R. L. Hughson and J. P. Callaghan

45 **Different computer tasks affect the exposure of the upper extremity to biomechanical risk factors**
J. T. Dennerlein and P. W. Johnson

62 **Investigating risk factors for slips, trips and falls in New Zealand residential construction using incident-centred and incident-independent methods**
T. A. Bentley, S. Hide, D. Tappin, D. Moore, S. Legg, L. Ashby and R. Parker

78 **Effect of drivers' age and push button locations on visual time off road, steering wheel deviation and safety perception**
T. Dukic, L. Hanson and T. Falkmer

93 **Cross-sectional investigation of task demands and musculoskeletal discomfort among restaurant wait staff**
P. G. Dempsey and A. J. Filiaggi

107 **Book reviews**

Volume 49 Number 2 10 February 2006

111 **Physiological responses of firefighters and performance predictors during a simulated rescue of hospital patients**
E. D. von Heimburg, A. K. R. Rasmussen and J. I. Medbø

127 **Trunk muscle activity in different modes of carrying schoolbags**
R. R. E. E. Motmans, S. Tomlow and D. Vissers

139 **Comparison of three computer office workstations offering forearm support: impact on upper limb posture and muscle activation**
A. Delisle, C. Larivière, A. Plamondon and D. Imbeau

161 **The ironies of vehicle feedback in car design**
G. H. Walker, N. A. Stanton and M. S. Young

180 **Optimal work–rest cycles for an isometric intermittent gripping task as a function of force, posture and grip span**
M. Eksioglu

202 **Impact of background noise on reaction time and brain DC potential changes of VDT-based spatial attention**
M. Trimmel and G. Poelzl

209 **Intermittent microclimate cooling during exercise-heat stress in US army chemical protective clothing**
B. S. Cadarette, S. N. Cheuvront, M. A. Kolka, L. A. Stephenson, S. J. Montain and M. N. Sawka

220 **Book review**

Volume 49 Number 3 22 February 2006

221 **Ergonomic design interventions–a case study involving portable ladders**
G. W. Shepherd, R. J. Kahler and J. Cross

235 **Interface stability influences torso muscle recruitment and spinal load during pushing tasks**
P. J. Lee and K. P. Granata

249 **Effect of stiffness and movement speed on selected dynamic torque characteristics of hydraulic-actuation joystick controls for heavy vehicles**
M. Oliver, R. Rogers, J. Rickards, M. Tingley and E. Biden

269 **Effects of age and gender on maximum voluntary range of motion of the upper body joints**
N. Doriot and X. Wang

282 **Analysis of self-reported problematic tasks for pregnant women**
P. L. Cheng, G. A. Dumas, J. T. Smith, A. B. Leger, A. Plamondon, M. J. McGrath and J. E. Tranmer

293 **Human push capability**
R. L. Barnett and T. Liber

316 **Hand and arm problems in flautists and a design for prevention**
S. Koppejan, C. J. Snijders, T. Kooiman and B. Van Bemmel

323 **Book reviews**

Volume 49 Number 4 15 March 2006

329 **Gait parameters as predictors of slip severity in younger and older adults**
B. E. Moyer, A. J. Chambers, M. S. Redfern and R. Cham

344 **Muscle fatigue and endurance during repetitive intermittent static efforts: development of prediction models**
H. Iridiastadi and M. A. Nussbaum

361 **Quantifying repetitive hand activity for epidemiological research on musculoskeletal disorders – Part I: individual exposure assessment**
S. Bao, P. Spielholz, N. Howard and B. Silverstein

381 **Quantifying repetitive hand activity for epidemiological research on musculoskeletal disorders – Part II: comparison of different methods of measuring force level and repetitiveness**
S. Bao, N. Howard, P. Spielholz and B. Silverstein

393 **Observational assessment of situation awareness, team differences and training implications**
J. Patrick, N. James, A. Ahmed and P. Halliday

418 **The impact of various rehydration volumes for firefighters wearing protective clothing in warm environments**
G. A. Selkirk, T. M. McLellan and J. Wong

434 **Book Reviews**

Volume 49 Numbers 5–6 15 April–15 May 2006

Special Issue: Patient Safety

439 **Editorial - Patient safety**
J. Edworthy, S. Hignett, E. Hellier and D. Stubbs

444 **Patient safety during medication administration: The influence of organizational and individual variables on unsafe work practices and medication errors**
G. J. Fogarty and C. M. McKeon

457 **Work stress and patient safety: Observer-rated work stressors as predictors of characteristics of safety-related events reported by young nurses**
A. Elfering, N. K. Semmer and S. Grebner

470 **Patient safety in outpatient surgery: The viewpoint of the healthcare providers**
P. Carayon, A. S. Hundt, C. J. Alvarado, S. R. Springman and P. Ayoub

486 **From cognition to the system: developing a multilevel taxonomy of patient safety in general practice**
O. Kostopoulou

503 **Error recovery in a hospital pharmacy**
L. Kanse, T. W. van der Schaaf, N. D. Vrijland and H. van Merlo

517 **Error detection: A study in anaesthesia**
A.-S. Nyssen and A. Blavier

526 **Prospective memory failures as an unexplored threat to patient safety: results from a pilot study using patient simulators to investigate the missed execution of intentions**
P. Dieckmann, S. Reddersen, T. Wehner and M. Rall

544 **A macro-ergonomic work system analysis of the diagnostic testing process in an outpatient health care facility for process improvement and patient safety**
M. L. Hallock, S. J. Alper and B. Karsh

567 **Identification of systems failures in successful paediatric cardiac surgery**
K. R. Catchpole, A. E. B. Giddings, M. R. de Leval, G. J. Peek, P. J. Godden, M. Utley, S. Gallivan, G. Hirst and T. Dale

589 **Measuring intra-operative interference from distraction and interruption observed in the operating theatre**
A. N. Healey, N. Sevdalis and C. A. Vincent

605 **A review of environmental hazards associated with in-patient falls**
S. Hignett and T. Masud

617 **Considering the impact of medicine label design characteristics on patient safety**
E. Hellier, J. Edworthy, N. Derbyshire and A. Costello

Volume 49 Number 7 10 June 2006

631 **Bedside safety rails: assessment of strength requirements and the appropriateness of current designs**
M. G. Boocock, A. K. Weyman and R. McIlroy

651 **The energetics of walking on sand and grass at various speeds**
S. E. H. Davies and S. N. Mackinnon

661 **Can simple anthropometric and physical performance tests track training-induced changes in maximal box-lifting ability?**
A. G. Williams and M. P. Rayson

671 **MAPO index for risk assessment of patient manual handling in hospital wards: a validation study**
N. Battevi, O. Menoni, M. G. Ricci and S. Cairoli

688 **Evolvable work-centred support systems for command and control: creating systems users can adapt to meet changing demands**
E. Roth, R. Scott, S. Deutsch, S. Kuper, V. Schmidt, M. Stilson and J. Wampler

706 **The effects of occupational interventions on reduction of musculoskeletal symptoms in the nursing profession**
E. H. Bos, B. Krol, A. van der Star and J. W. Groothoff

724 **The differential effect of vibrotactile and auditory cues on visual spatial attention**
C. Ho, H. Z. Tan and C. Spence

739 **Book review**

Volume 49 Number 8 22 June 2006

Special Issue: The History of the Ergonomics Society

741 **The History of the Ergonomics Society**
R. B. Stammers

743 **Recurrent themes and developments in the history of the Ergonomics Society**
P. Waterson and R. Sell

Volume 49 Number 9 15 July 2006

801 **Initial force and postural adaptations when pushing and pulling on floor surfaces with good and reduced resistance to slipping**
M. G. Boocock, R. A. Haslam, P. Lemon and S. Thorpe

822 **Effects of a thermal-insulating mouse pad on temperature of forearm and hand during computer tasks**
E. M. Meijer, M. A. G. Formanoy, B. Visser, J. K. Sluiter and M. H. W. Frings-Dresen

832 **An evaluation of a lane support system for bus rapid transit on narrow shoulders and the relation to bus driver mental workload**
N. J. Ward, C. Shankwitz, A. Gorgestani, M. Donath, D. de Waard and E. R. Boer

860 **The feasibility of repositioning ability as a tool for ergonomic evaluation: effects of chair back inclination and fatigue on head repositioning**
T. F. Y. Wong, D. H. K. Chow, A. D. Holmes and K. M. C. Cheung

874 **Linear temporal characteristics of heart interbeat interval as an index of the pilot's perceived risk**
S. Sharma

885 **Changes in gait kinematics and posture with the use of a front pack**
P. Fiolkowski, M. Horodyski, M. Bishop, M. Williams and L. Stylianou

895 **Pushing and pulling: personal mechanics influence spine loads**
K. K. Lett and S. M. McGill

909 **Book review**

Volume 49 Number 10 15 August 2006

911 **Effects of the self-contained breathing apparatus and fire protective clothing on maximal oxygen uptake**
R. W. Dreger, R. L. Jones and S. R. Petersen

921 **Effects of electromyographic and mechanomyographic biofeedback on upper trapezius muscle activity during standardized computer work**
P. Madeleine, P. Vedsted, A. K. Blangsted, G. Sjøgaard and K. Søgaard

934 **Cognitive diversity and team performance in a complex multiple task environment**
J. Sauer, T. Felsing, H. Franke and B. Rüttinger

955 **Information processing capacity while wearing personal protective eyewear**
C. Wade, J. Davis, T. S. Marzilli and W. H. Weimar

968 **Quantifying low back peak and cumulative loads in open and senior sheep shearers in New Zealand: Examining the effects of a trunk harness**
D. E. Gregory, S. Milosavljevic and J. P. Callaghan

982 **Prediction of slips: an evaluation of utilized coefficient of friction and available slip resistance**
J. M. Burnfield and C. M. Powers

996 **Effect of keyswitch design of desktop and notebook keyboards related to key stiffness and typing force**
M. J. Bufton, R. W. Marklin, M. L. Nagurka and G. G. Simoneau

1013 **Technical note – Right hand advantage in visually guided reaching and aiming movements: brief review and comments**
G. Grouios

1018 **Book reviews**

Volume 49 Number 11 15 September 2006

1021 **The effect of joystick handle size and gain at two levels of required precision on performance and physical load on crane operators**
M. A. Huysmans, M. P. de Looze, M. J. M. Hoozemans, A. J. van der Beek and J. H. van Dieën

1036 **The relationship between shoulder torques and the perception of muscular effort in loaded reaches**
C. R. Dickerson, B. J. Martin and D. B. Chaffin

1052 **Musculoskeletal disorders among female and male air traffic controllers performing identical and demanding computer work**
I. Arvidsson, M. Arvidsson, A. Axmon, G.-Å. Hansson, C. R. Johansson and S. Skerfving

1068 **The effect of speech and speech intelligibility on task performance**
N. Venetjoki, A. Kaarlela-Tuomaala, E. Keskinen and V. Hongisto

1092 **Measures of localized spinal muscle fatigue**
S. Kumar, M. Fagarasanu, Y. Narayan and N. Prasad

1111 **A comparison between intermittent and constant wheelchair propulsion strategies**
V. L. Goosey-Tolfrey and J. P. Lenton

1121 **Technical note – Prediction of forearm muscle activity during gripping**
J. P. M. Mogk and P. J. Keir

Volume 49 Numbers 12–13 10–22 October 2006

Special Issue: Command and Control

1131 **Editorial – The ergonomics of command and control**
N. A. Stanton and C. Baber

1139 **Collaborative planning and situation awareness in Army command and control**
J. M. Riley, M. R. Endsley, C. A. Bolstad and H. M. Cuevas

1154 **Effects of battlefield display frames of reference on navigation tasks, spatial judgements, and change detection**
L. C. Thomas and C. D. Wickens

1174 **Understanding emergency medical dispatch in terms of distributed cognition: a case study**
D. Furniss and A. Blandford

1204 **Command and control in emergency services operations: a social network analysis**
R. J. Houghton, C. Baber, R. McMaster, N. A. Stanton, P. Salmon, R. Stewart and G. Walker

1226 **Speech acts, communication problems, and fighter pilot team performance**
J. Svensson and J. Andersson

1238 **Cognitive task load in a naval ship control centre: from identification to prediction**
M. Grootjen, M. A. Neerincx and J. A. Veltman

1265 **Automated assistance for human factors analysis in complex systems**
A. Gregoriades and A. G. Sutcliffe

1288 **Distributed situation awareness in dynamic systems: theoretical development and application of an ergonomics methodology**
N. A. Stanton, R. Stewart, D. Harris, R. J. Houghton, C. Baber, R. McMaster, P. Salmon, G. Hoyle, G. Walker, M. S. Young, M. Linsell, R. Dymott and D. Green

1312 **Measuring team situation awareness in decentralized command and control environments**
J. C. Gorman, N. J. Cooke and J. L. Winner

1326 **A framework for managing system disturbances and insights from air traffic management**
S. T. Shorrock and O. Straeter

1345 **Event Analysis of Systemic Teamwork (EAST): a novel integration of ergonomics methods to analyse C4i activity**
G. H. Walker, H. Gibson, N. A. Stanton, C. Baber, P. Salmon and D. Green

1370 **A naturalistic study of railway controllers**
T. Farrington-Darby, J. R. Wilson, B. J. Norris and T. Clarke

1395 **Human processes of control: tracing the goals and strategies of control room teams**
J. Patrick, N. James and A. Ahmed

1415 **Supporting command and control training functions in the emergency management domain using cognitive systems engineering**
C. A. Ntuen, O. Balogun, E. Boyle and A. Turner

Volume 49 Number 14 15 November 2006

1437 **A field study investigating the effects of a rebar-tying machine on trunk flexion, tool usability and productivity**
P. Vi

1456 **Changes in upper extremity biomechanics across different mouse positions in a computer workstation**
J. T. Dennerlein and P. W. Johnson

1470 **Vicarious perception of postural discomfort and exertion**
C. G. Drury, M. Atiles, M. Chaitanya, J.-F. Lin, C. Marin, M. Nasarwanji, D. Paluszak, C. Russell, R. Stone and M. Sunn

1486 **Bicycle messengers: energy expenditure and exposure to air pollution**
E. Bernmark, C. Wiktorin, M. Svartengren, M. Lewné and S. Åberg

1496 **The impact of light and colour on psychological mood: a cross-cultural study of indoor work environments**
R. Küller, S. Ballal, T. Laike, B. Mikellides and G. Tonello

1508 **An analysis of relational complexity in an air traffic control conflict detection task**
C. Boag, A. Neal, S. Loft and G. S. Halford

1527 **Influence of carrying heavy loads on soldiers' posture, movements and gait**
R. L. Attwells, S. A. Birrell, R. H. Hooper and N. J. Mansfield

1538 **Background to sitting at work: research-based requirements for the design of work seats**
E. N. Corlett

Volume 49 Number 15 15 December 2006

1547 **External and internal geometry of European adults**
S. Bertrand, W. Skalli, L. Delacherie, D. Bonneau, G. Kalifa and D. Mitton

1565 **A memory-based model for planning target reach postures in the presence of obstructions**
W. Park, D. Singh and B. J. Martin

1581 **Pilot mental workload: how well do pilots really perform?**
C. H. Morris and Y. K. Leung

1597 **The effects of music tempo and loudness level on treadmill exercise**
J. Edworthy and H. Waring

1611 **Stability of sitting postures: the influence of degrees of freedom**
H. M. Hendriks, C. W. Spoor, A. M. de Jong and R. H. M. Goossens

1627 **The effects of shoulder load and pinch force on electromyographic activity and blood flow in the forearm during a pinch task**
B. Visser, P. K. Nielsen, H. de Kraker, M. Smits, B. R. Jensen, D. Veeger and J. H. van Dieën

1639 **Influence of fatigue time and level on increases in postural sway**
K. M. Pline, M. L. Madigan and M. A. Nussbaum
